

Journal of Electrical and Computer Engineering

Machine Intelligence in Signal Sensing, Processing and Recognition

In recent years, machine intelligence has become a well-established research area and attracts a number of researchers in many scientific fields, ranging from science and engineering, for examples, robotics, artificial intelligence, big data, IoT, smart things, etc. Many communities such as signal processing, intelligent sensing, image/video processing, computer vision, machine learning, deep learning, transfer learning etc. have joined the research of machine intelligence. This special issue aims at creating a multidisciplinary forum on recent advances in signal processing and machine learning theory/algorithms, applications to image/video analysis, multimedia analysis, heterogeneous data analysis, robotics, rich data mining, object recognition, remote sensing, sensors/multi-sensor array, intelligent systems, faults detection in electrical, etc. All accepted papers will show a strong connection to machine intelligence in these areas. This issue accepts high quality articles containing original research results and merit. It will let readers of this journal know more about the area of engineering in electrical and computer.

Potential topics of interest include, but are not limited to:

- Signal processing
- Deep learning
- Intelligent algorithms and applications
- Transfer learning
- Extreme learning machines
- Electronic sensing
- Remote sensing
- Electrical engineering
- Smart grid analysis
- Machine learning
- Pattern Recognition

Manuscript Due	March 10, 2017
First Round of Reviews	June 02, 2017
Publication Date	July 28, 2017

Lead Guest Editor

Lei Zhang, Chongqing University, Chongqing, China; leizhang@cqu.edu.cn

Guest Editors

Sunil Kr. Jha, University of Information Science and Technology “St. Paul the Apostle”, Ohrid, Macedonia; sdrsunil76@gmail.com

Zhixin Yang, University of Macau, Taipa, Macau; zyyang@umac.mo

Zhenbing Zhao, North China Electric Power University, Baoding, China; zhaozhenbing@ncepu.edu.cn

Bhupendra Nath Tiwari, INFN-Laboratori Nazionali di Frascati, Rome, Italy; bntiwari.iitk@gmail.com
